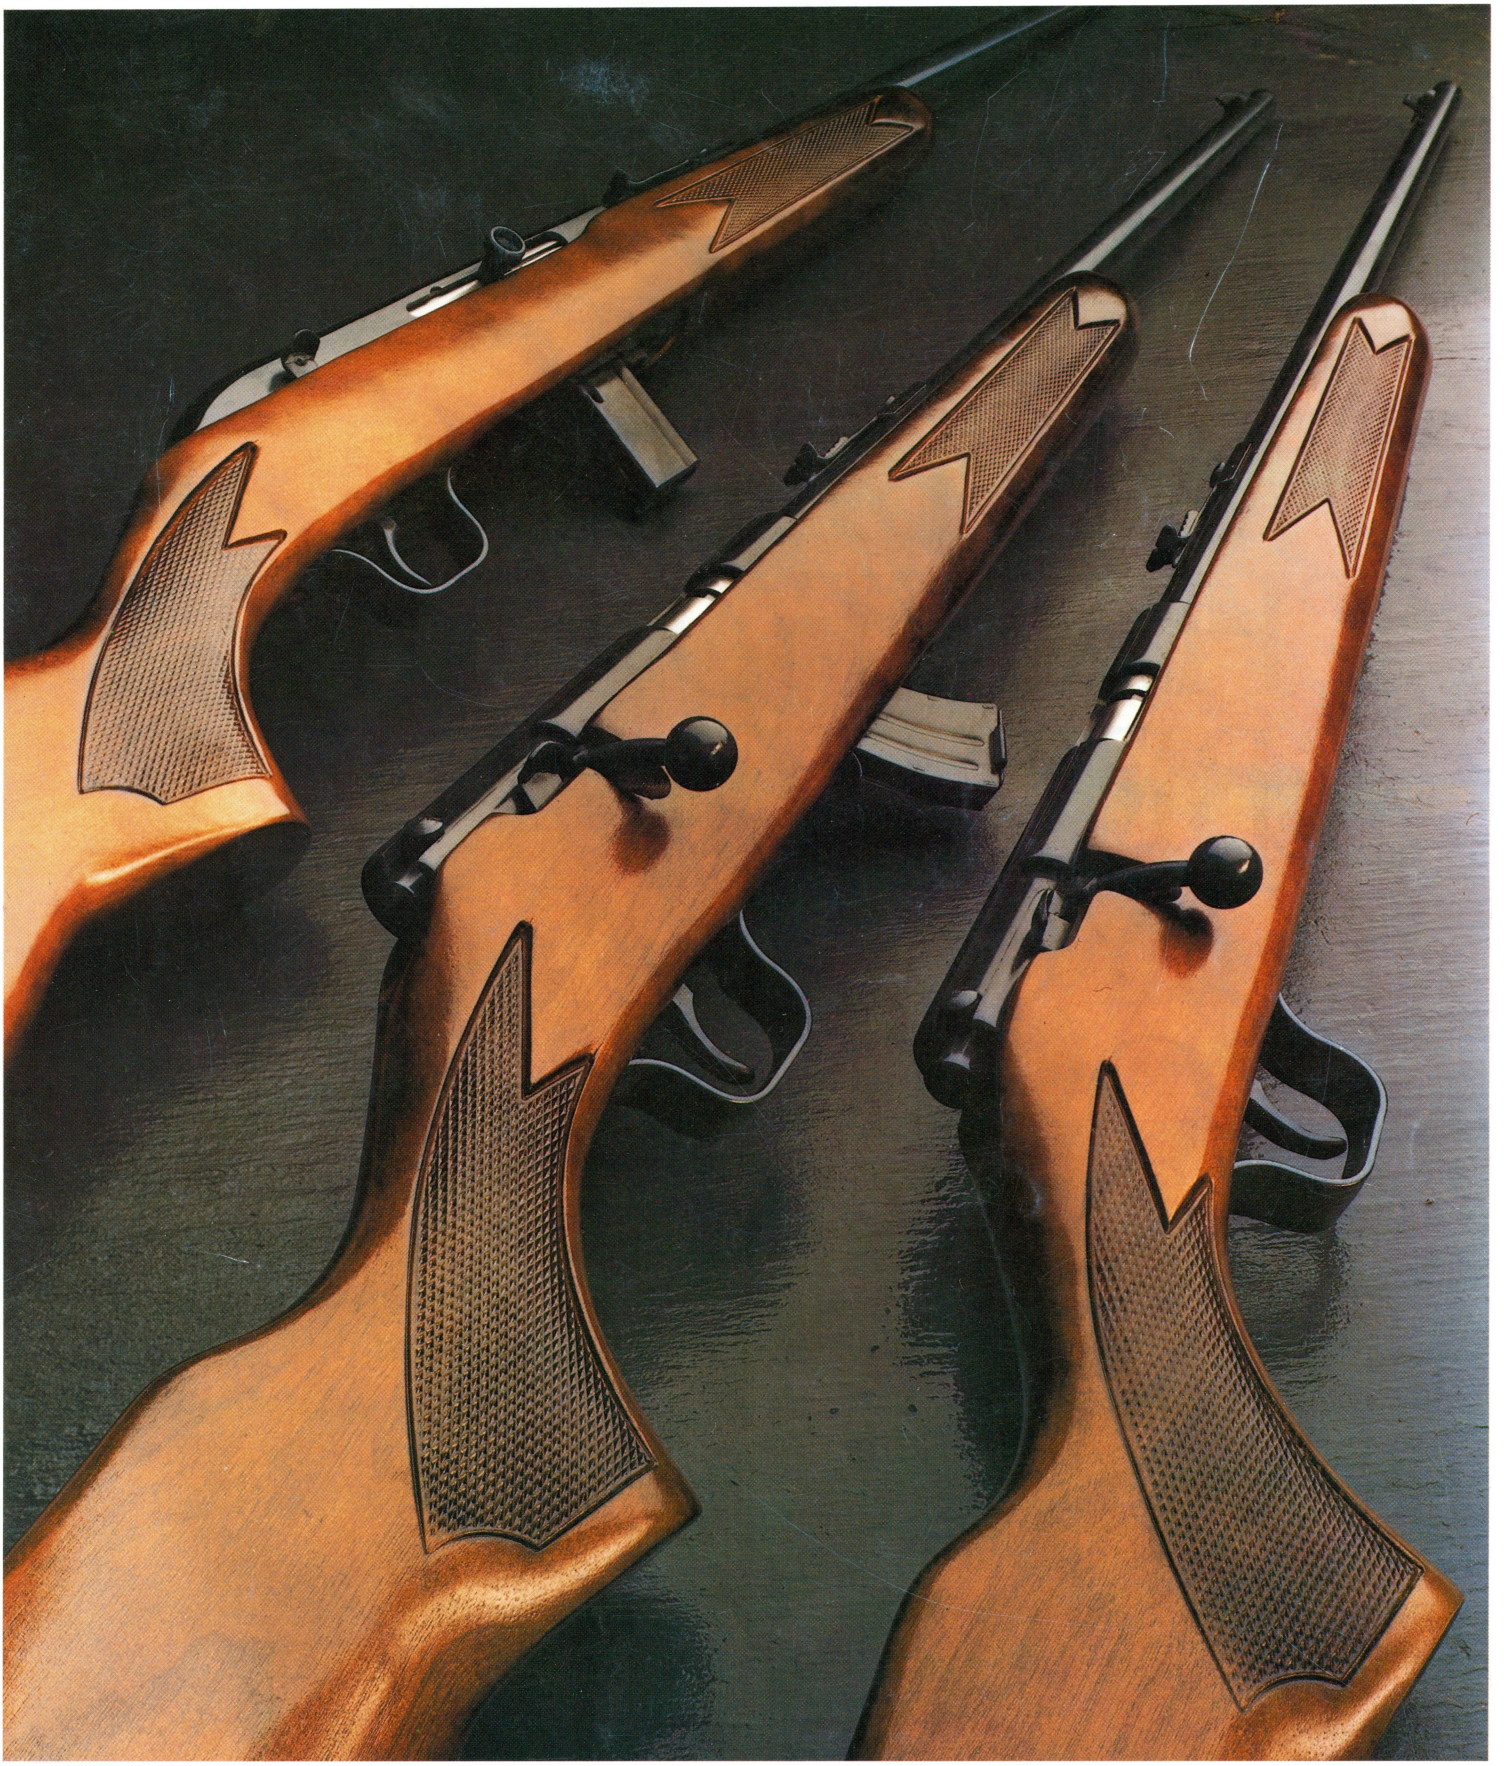
LAKEFIELD SPORTING FIREARMS CATALOGUE

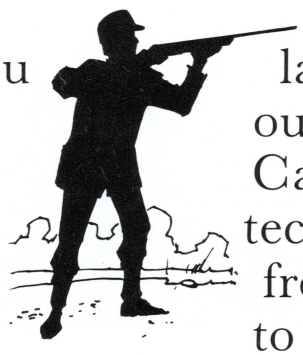


1990

WE BELIEVE, THAT TO BUILD A BETTER RIFLE, YOU HAVE TO AIM HIGH.

Aiming high.

One of the secrets of success. At Lakefield Arms you can see that success, in every finely manufactured firearm we make. When you pick up one of our rifles, you're picking up some of the finest quality materials available. Stocks crafted from one piece hardwood, with barrels and receivers carefully machined from selected gun quality steel.



At Lakefield Arms, labour has truly become a labour of love. All our rifles are 100% Canadian made using techniques handed down from one generation to the next.

Every rifle is loaded with features designed for safety and ease of operation. Whether you're in the bush, woods, rain or snow, you can be sure our rifles will perform.

THE LAKEFIELD MOSSBERG 500's

To add to our impressive list of quality firearms is the Lakefield Mossberg 500 series assembled by Canadian craftsmen.

A shotgun chosen to complement our our own line-up, it's no wonder the Lakefield Mossberg's Model 500 is the best selling pump-action shotgun in the world today. Heralding a long list of impressive features and industry precedents, it stands without equal for reliability and adaptability.

Lakefield Mossberg is proud of these innovations pioneered for the Model 500. An example: all Lakefield Mossberg model 500 pump-action shotguns feature high-strength aluminum alloy receivers to minimize weight in the field and provide better balance and swing characteristics.

Never point a gun at anything you do not want to shoot; avoid all horseplay.

Be sure of target before you pull trigger; know identifying features of game you hunt.

The bottom line: as a Lakefield Mossberg Model 500 owner, you always have the supreme advantage of being able to adapt your shotgun to any number of different shooting activities.

All the Model 500's are engineered to last. Proven dependability and versatility.

THE PUMP-ACTION 835 ULTI-MAG AND 500 TROPHY SLUGSTER

835 ULTI-MAG

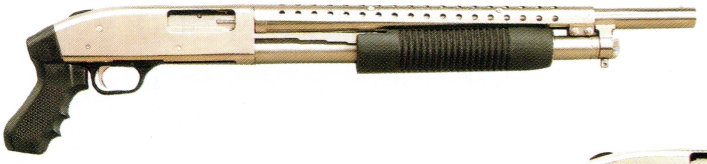
The model 835 Ulti-mag is without question one of the most versatile shotguns ever designed. Weighing only 7-3/4 lbs., the Model 835 is designed to handle all 12 gauge 2-3/4'' and 3'' loads plus the new 3-1/2''.

An impressive list of features accompany this shotgun making it the new benchmark of what a 12 gauge shotgun should be.

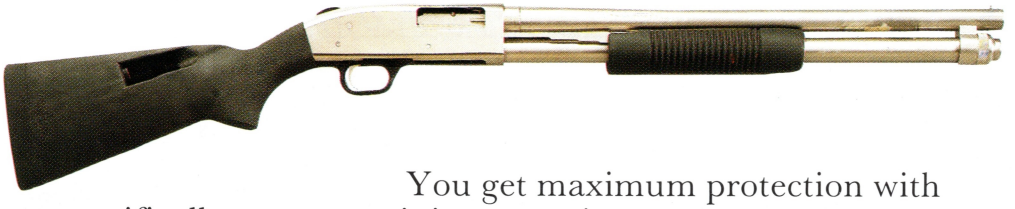
500 TROPHY SLUGSTER

Most sportsmen have historically accepted the fact that the practical effective range of the 12 gauge shotgun when shooting rifled slugs is not much more than fifty yards. At Mossberg, they challenged their engineers to develop a slug gun which could break this ''50 yard'' barrier. The result; an exceptional 12 gauge slug gun. The patented Model 500 Trophy Slugster.

THE MODEL 500 & 590 MARINER



500 MARINER



590 MARINER

The Mariner offers you the peace of mind of having a reliable shotgun specifically designed for maximum corrosion resistance. Every metal part is treated with Marinecote, a unique Teflon and nickel coating, combined with synthetic stocks and forearms.

You get maximum protection with minimum maintenance.

Model	Catalog Number		
	Synthetic Field	SPEEDFEED	Pistol Grip

New Model 590 (Mini-Combo)	50316	50321	

THE MARLIN SERIES

MARLIN 25MN

MARLIN 25N

MARLIN 70P

Marlin firearms have 120 years of quality and craftsmanship built into every rifle. Marlin offers you three exceptional .22 caliber rifles.

Eye and ear protection when shooting is recommended.

The Marlin 25 MN 22 Caliber Winchester Magnum features a 7 shot clip magazine; 22'' Micro Groove[R] barrel; walnut finished hardwood stock and a handy positive thumb safety. The 70P is a semi-automatic take-down rifle with side ejection; manual bolt hold open and cross-bolt safety. The 25N features a 7 shot clip magazine; red cocking indicator; thumb safety and walnut finish hardwood stock.

The 70P comes complete with a Cordura carrying case which floats, even with the gun inside. The burshed nylon interior features Velcro[R] straps to hold the rifle sections securely.

A CANADIAN RIFLE TRADITION.

Competitive pricing • Quality performance • Reliable service
